

Chlorine Conversion – Germany

From shut-down of diaphragm to start up of membrane cells in 30 days

- **Client:** BASF Ludwigshafen
- **Contractual scheme:** EPC LSTK (Revamp)
- **Scope of Work**
 - Project Management
 - Basic & Detail Engineering
 - Procurement
 - Operation Logic
 - Construction & Start-up

Technical Details

Process :

- Asahi Kasei Membrane Technology (Conversion of a diaphragm to membrane technology)

Capacity:

- 220 kt/y Cl_2
