

Petroleum Coke Calcining Plant – Bahrain

World largest Calcining Project in 1 Phase

- **Client:** Aluminium Bahrain
- **Contractual scheme:** EPC
- **Scope:** EPC LSTK
 - Project Permitting
 - Green Coke Blending Concept
 - Basic & Detail Engineering
 - Procurement and Construction Management
 - Commissioning & Start Up

Technical Details

- Process:** Rotary Kiln Technology
- Design Capacity:** 2 x 225.000 t/a
(Anode Grade Calcined Pet. Coke)
- Actual Capacity:** appr. 600.000 t/a
- By Product:** Distillate 41.000 m³/d
- Other Details:** Flue Gas SW Desalination Plant
