## Key User Procurement/Project Buyer (m/f/d)

(19135)

### Are you ready for a varied range of tasks?

- Applying and continuously optimising our ERM system in accordance to our existing purchasing processes
- Supporting and optimising our supplier portal and maintaining the supplier database up to date
- Supporting the team in the application of tools and when required developing concepts for improving processes
- Supporting the project procurement in reporting tasks, requests and orders
- Within the procurement team you share the responsibility of achieving the objectives of all EPC/EPCC projects by ensuring the correct functioning of the relevant systems

### Then show us what makes you special

- Successfully completed degree in business informatics, information technology or a comparable qualification
- Experience as project buyer in plant construction
- Experience in the implementation of ERM or ERP systems
- Ideally experience in the oil, gas, petrochemical or power plant industry
- Good English and German knowledge
- Independent and proactive working style

With more than 50 years of experience as a general contractor for the oil & gas (upstream and downstream) and chemical industries, MMEC Mannesmann services cover the entire cycle from early project development, feasibility studies, including hydraulic and case studies, conceptual and basic design, front-end engineering design up to implementation of turn-key projects. We provide our services in respect of process plants for the oil, gas, refining, chemical and renewables industries. We combine technological know-how with the local requirements of your preferred project implementation scheme.
