Diversity

Company doctor

Support with (Child)care

Flat hierarchies

Company sports

With more than 50 years of experience as a general contractor for the oil & gas (upstream and downstream) and chemical industries, MMEC Mannesmann services cover the entire cycle from early project development, feasibility studies, including hydraulic and case studies, conceptual and basic design, front-end engineering design up to implementation of turn-key projects. We provide our services in respect of process plants for the oil, gas, refining, chemical and renewables industries. We combine technological know-how with the local requirements of your preferred project implementation scheme.

Have we raised your interest?

Then we look forward to receiving your application by e-mail at karriere@mmecc-mannesmann.com.

Please send us your complete application documents (cover letter, curriculum vitae, certificates) and your salary expectation.

If you have any questions, please do not hesitate to contact Antonia Becker on 0211 659 2004.
