

In the process of further expansion we are looking for a

Project Manager (m/w/d)

(18023)

Are you ready for a varied range of tasks?

- Management of demanding national and international projects in the oil and gas industry or (petro)chemical industry
- Team-orientated coordination of all technical, commercial and contractual matters
- Controlling of schedules for project Engineering-, Procurement- und Construction processes
- Responsible for compliance with budget and contractual obligations
- Reporting to the head of Project Management

Then show us what makes you special

- Engineering Degree
- at least 5 years experience as Project Manager for process plants or pipeline projects as well as several years experience in engineering and/or construction
- several years experience in working in multidisciplinary teams
- teamplayer with very good communication- and motivational capability
- analytical and solution-orientated thinking and working
- very good English and German knowledge
- willingness for assignments abroad

With more than 50 years of experience as a general contractor for the oil & gas (upstream and downstream) and chemical industries, MMEC Mannesmann services cover the entire cycle from early project development, feasibility studies, including hydraulic and case studies, conceptual and basic design, front-end engineering design up to implementation of turn-key projects. We provide our services in respect of process plants for the oil, gas, refining, chemical and renewables industries. We combine technological know-how with the local requirements of your preferred project implementation scheme.
