

In the process of further expansion we are looking for a

Senior Contracts Manager (m/f/d)

(19133)

Are you ready for a varied range of tasks?

- Contractual handling of EPC (large-scale) projects (MMEC as sole contractor or in partnerships = consortium or joint venture)
- Responsible for all contract management duties along the project lifecycle
- Formulating, negotiating and handling subcontracting agreements and purchase orders
- Supporting the project manager in contractual matters
- Formulating and defending contractual amendments in the relation with our clients
- Analysing the contract terms and defending MMEC against claims from subcontractors & suppliers

Then show us what makes you special

- Successfully completed engineering, business or commercial law studies
- Several years of professional experience as a Contract Manager in the German & international industrial plant construction area
- Experience in the implementation of ERM or ERP systems
- Ideally experience in the oil, gas, petrochemical or power plant industry
- Strong analytical thinking skills
- Very good English and German knowledge

With more than 50 years of experience as a general contractor for the oil & gas (upstream and downstream) and chemical industries, MMEC Mannesmann services cover the entire cycle from early project development, feasibility studies, including hydraulic and case studies, conceptual and basic design, front-end engineering design up to implementation of turn-key projects. We provide our services in respect of process plants for the oil, gas, refining, chemical and renewables industries. We combine technological know-how with the local requirements of your preferred project implementation scheme.
