

In the process of further expansion we are looking for a

Subcontracting Manager (m/f/d)

(18064)

Are you ready for a varied range of tasks?

- Coordination of bidders and tender documents with the specialist departments
- Execution of tenders, price comparisons and contract negotiations with subcontractors and suppliers
- Conclusion of subcontractor and supply contracts
- Support of the contracts up to the conclusion of the trades, support of the departments in supplementary management and in contract escalation
- Development and maintenance of a network of suitable subcontractors and suppliers, including those from international procurement markets
- Competence analysis and determination of strengths and weaknesses of companies

Then show us what makes you special

- Business economist, commercial or technical apprenticeship, also civil engineer possible
- Several years of practical experience in the purchase of building materials and subcontractor services
- Confident handling of contract law / VOB desired
- Strong service orientation and communication skills
- Very good written and spoken knowledge of English and German

With more than 50 years of experience as a general contractor for the oil & gas (upstream and downstream) and chemical industries, MMEC Mannesmann services cover the entire cycle from early project development, feasibility studies, including hydraulic and case studies, conceptual and basic design, front-end engineering design up to implementation of turn-key projects. We provide our services in respect of process plants for the oil, gas, refining, chemical and renewables industries. We combine technological know-how with the local requirements of your preferred project implementation scheme.
